

Stat 315:
Theory and Practice of Statistics

AARON NIELSEN, PH.D.

Welcome to STAT 315!

Please write your info on the provided notecard:

- 1 Name
- 2 Pronouns
- 3 Major
- 4 Expected graduation date
- 5 Favorite song
- 6 Hobbies
- 7 One interesting fact about yourself
- 8 Do you require any additional accommodations?
- 9 Do you have any other questions for me?

STAT 315: INTRO. TO THE THEORY AND PRACTICE OF STATISTICS Summer 2024

Instructor:	Aaron Nielsen	Email:	aaron.nielsen@colostate.edu
Section/Time:	001 (MTWRF 9:00 – 11:00am)	Location:	Wagar 231
Webpages:	http://canvas.colostate.edu/		http://www.webassign.net/

Course format: This semester's course will be held **in-person**. You are encouraged to attend lectures, however, attendance will not be taken. You are required to complete homework assignments online and take exams in-person on exam dates.

Course credits: 3

Recommended Textbook: *Probability and Statistics for Engineers and Scientists* (any edition) by Jay L. Devore

Required Software: R (It's free and available at <http://www.r-project.org/>) and RStudio (also free and available at <https://rstudio.com/>).

Office Hours: My office hours are MTWR 11am-12pm (no office hours on Friday). These are held in the Statistics Success Center (Weber 223A).

For more information about the SSC, see:

<https://statistics.colostate.edu/advising-statistics-success-center/>

Syllabus

Tips for Succeeding

About Me

Prerequisite: Math 155 or Math 159 or Math 160 (Calculus I). Note that some topics from Calculus 2 and 3 will be used in class, however, we will discuss these methods before using them.

Course overview: Descriptive statistics, probability, conditional probability, random variables (discrete, continuous, multivariate), point estimation, hypothesis testing, confidence intervals, ANOVA, simple linear regression, multiple regression

Learning Objectives: Upon successful completion, students will be able to:

1. Describe any notable features of data based on numerical summary statistics and graphical figures.
2. Apply basic concepts of probability including set theory, the axioms of probability, conditional probability, and Bayes' Theorem.
3. Use methods from Calculus to investigate properties of random variables.
4. Derive point estimates and confidence intervals for unknown parameters and interpret the results.
5. Use p-value based hypothesis testing to test questions regarding unknown population parameters.
6. Investigate the relationship between quantitative variables using simple and multiple regression.
7. Use R software to import data, graph data, produce statistical summaries of data, implement popular model-based procedures, and provide meaningful interpretations of your results.

Online Homework: Online homework will be due on Tuesdays, Wednesdays, and Thursdays by 11:59pm. Late homework is accepted up to one week late for half credit. You need to register for our class at <http://www.webassign.net/> using the code **colostate 0772 1925**. You should not have to pay for this service, as it is covered by student tech fees.

Tips for Succeeding

About Me

Quizzes: There will be four in-person quizzes. You are allowed to use a calculator and a two-sided 4"x6" notecard of formulas/notes. In the event of an instructor-approved, excused absence, the student will have the option to either take a make-up exam within 72 hours of the original exam date or double count their final exam in place of the missed exam.

Basis for Final Grade: Your final grade will be based on your exam scores, weekly homework sets, and intangibles such as class participation. The intangibles can only increase your grade. The weightings will be as follows:

- Online Homework Assignments: 40%
- Quiz #1 (Friday, May 17): 15%
- Quiz #2 (Friday, May 24): 15%
- Quiz #3 (Friday, May 31): 15%
- Quiz #4 (Friday, June 7): 15%

About Me

Grading Scale: Your course grade will be determined from the following grading scale:

A	93% – 100%	C+	77% – 80%
A-	90% – 93%	C	70% – 77%
B+	87% – 90%	D	60% – 70%
B	83% – 87%	F	0% – 60%
B-	80% – 83%		

Syllabus updates: The instructor reserves the right to make changes to the syllabus during the semester. These changes will be announced in class and on Canvas.

Course schedule: The following schedule of course materials covered is tentative, but the dates of the quizzes will not change.

Week	Chapters	Topics
1	1–3	Descriptive Statistics, Probability, Discrete Random Variables
2	4–6	Continuous Random Variables, Multivariate Distributions, Sampling Distributions
3	7–9	Confidence Intervals, Hypothesis Testing, Two-Sample Inference
4	10–12	ANOVA, Simple Linear Regression, Multiple Linear Regression

About Me

Course Policies:

- **Academic Integrity and CSU Honor Pledge:** This course will adhere to the CSU Academic Integrity/Misconduct policy as found in the General Catalog and the Student Conduct Code. Academic integrity lies at the core of our common goal: to create an intellectually honest and rigorous community. Because academic integrity, and the personal and social integrity of which academic integrity is an integral part, is so central to our mission as students, teachers, scholars, and citizens, I will ask that you affirm the CSU Honor Pledge as part of completing your work in this course. Further information about Academic Integrity is available at CSU's Academic Integrity - Student Resources.
- **Cheating:** This includes using unauthorized sources of information and providing or receiving unauthorized assistance on any form of academic work or engaging in any behavior specifically prohibited by the faculty member. In particular, students are not allowed to communicate with others during exams and are not allowed to use online solutions from any source.
- **Online Homework Helpers:** The use of online "homework helper" sites including, but not limited to, Chegg, NoteHall, Quizlet, Koofers, and ChatGPT is not permitted in this course. Please reach out to your instructor to discuss if a specific service you are thinking about using for this course is acceptable. Use of these types of resources will be considered receiving unauthorized assistance and, therefore, a violation of the student conduct code. Using them may result, at the discretion of the instructor, in a zero for the course, assignment, quiz, or exam. All incidents of this type will be referred to the CSU Student Resolution Center and may be subject to additional University disciplinary action.
- **Late Work Policy:** Online homework may be submitted up to one week late for half credit. No late homework can be submitted after the final exam.

About Me

- **Grades of “Incompletes”:** I will follow university procedures on “incompletes”, i.e., they are only given in situations where unexpected emergencies prevent students from completing the course and the remaining work can be easily finished the following semester. Incomplete work must be finished the next semester or the grade automatically turns into an F.
- **Group Work Policy:** Students are welcome to work together on homework, but note that some WebAssign problems will have different numbers from student to student. You may not use solutions obtained from previous semesters or from online. This is considered academic dishonesty.
- **Students with Disabilities:** The university is committed to providing support for students with disabilities. If you have an accommodation plan, please see me so we can make any arrangements necessary to facilitate your learning.
- **Need Help?** CSU is a community that cares for you. If you are struggling with drugs or alcohol and/or experiencing depression, anxiety, overwhelming stress or thoughts of hurting yourself or others please know there is help available. Counseling Services has trained professionals who can help. Contact 970-491-6053 or go to <http://health.colostate.edu>. If you are concerned about a friend or peer, tell someone by calling 970-491-1350 to discuss your concerns with a professional who can discreetly connect the distressed individual with the proper resources (<http://safety.colostate.edu/tell-someone.aspx>). Rams take care of Rams. Reach out and ask for help if you or someone you know is having a difficult time.
- **COVID:** For the latest information about the University’s COVID resources and information, please visit the CSU COVID-19 site <https://covid.colostate.edu/>.

Tips for Succeeding

About Me

- We have designed course materials to be as affordable as possible.
- There's no required textbook.
- We programmed the online homework (WebAssign) ourselves to lower the costs as well.
- WebAssign fees will be paid by student tech no fees, so no additional charge to you.
- If you encounter any "bugs" in the homework, feel free to let me know so we can fix the issue.

Tips for Succeeding

About Me

- Register for WebAssign using the code: colostate 0772 1925
- Install R and then install R Studio on your computer. If you don't have a computer, you will need to get access to a computer immediately. You may be able to rent one from the library.
- The first two pages of the *R Companion* will help you set up R and R Studio.
- Complete HW #1 as soon as possible. (It's due Tuesday, May 14 by 11:59pm)

Tips for Succeeding

About Me

- Class attendance is not required, but I highly recommend that you attend class regularly.
- There will be homework assignments due on Tuesdays/Wednesday/Thursday nights by 11:59pm.
- For each chapter, be sure to utilize the *R Companion* to help you with using R Studio. Each homework assignment will involve some data analysis using R Studio.

Tips for Succeeding

About Me

- If you have homework questions, attend office hours or get help in the Statistic Success Center (Weber 223A).
- **My office hours are Mon/Tues/Weds/Thursday 11:00am – 12:00pm.**
- Answering homework questions over email can be difficult, so please try to keep homework questions to office hours.
- If you have logistical or other kinds of questions, feel free to email me.

Your Instructor, Dr. Aaron Nielsen

Tips for Succeeding

About Me

- I'm 40 years old, was born in Lincoln, Nebraska, and have lived in Colorado since 1998
- I received a Ph.D. in Applied Mathematics from the University of Colorado Denver in 2018
- I have been an Assistant Professor in the Department of Statistics since 2018
- My wife, Rachel, is a kindergarten teacher, and we have six cats
- I have four brothers (no sisters)

My Education

Syllabus

Course Costs

Getting Started

Tips for Succeeding

About Me

- Ph.D. Applied Mathematics, University of Colorado Denver (2018)
- M.S. Statistics, Colorado State University (2014)
- M.S. Applied Mathematics, University of Colorado Denver (2012)
- M.S. Electrical Engineering, University of Colorado Boulder (2008)
- B.S. Electrical Engineering/Mathematics, Colorado State University (2007)
- B.A. Philosophy, Colorado State University (2024)

My Teaching Experience

Syllabus

Course Costs

Getting Started

Tips for Succeeding

About Me

- I've been teaching for twelve years and have taught over a dozen courses at two universities.
- Previous courses I've taught:
 - Introductory Statistics (Stat 201/204/301)
 - Introductory Statistics, Calculus-based (Stat 315)
 - College Algebra (Math 117/118/124)
 - Calculus 1 & 2 (Math 160/161)
 - Linear Algebra (Math 369)
 - Sampling Techniques (Stat 305)
 - Statistical Data Analysis 2 (Stat 342)
 - Sports Statistics 1 & 2 (Stat 351/451)
 - Probability (Stat 420)
 - Mathematical Statistics (Stat 430)
 - Applied Multivariate Statistics (Stat 460)
 - Statistical Consulting (Stat 472)

My Hobbies

Syllabus

Course Costs

Getting Started

Tips for Succeeding

About Me

- Chicago Cubs baseball
- Video games (particularly the Final Fantasy series)
- Listening to music (Smashing Pumpkins, Grateful Dead, Wilco, etc)
- Reading (philosophy, history, anything by Hunter S. Thompson)
- Traveling (Munich, Germany is my favorite place to visit)
